

M.L.I.T. JAPAN TYPE APPROVAL NO. 3 0 5 4

HAND FLARE KM35

In compliance with the requirements of the 1996 Amendments to the International Convention for the SOLAS, 1974, LSA code and IMO Resolution **MSC . 8 1 (7 0)**

This hand-held Red Flare is provided with a pulling ignition mechanism on top and is downsized suitable for storage in survival crafts.

This signal is improved suitably for an operator wearing immersion suit.

APPLICATIONS:

For use on small crafts and in ship's life-boats and life-rafts.

PERFORMANCE:

Burns for 1 minute at minimum of 15,000 candela.

DIMENSIONS & WEIGHT:

27mm diameter, 148mm long, 180g

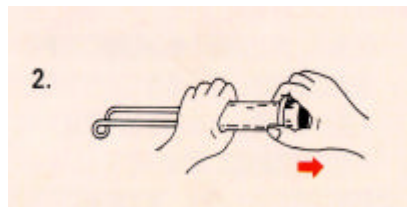

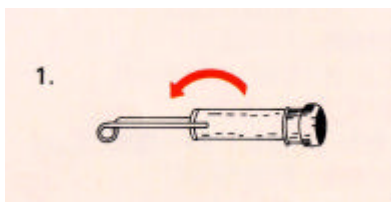

EFFECTIVE PERIOD:

3 Years and 6 Months

OPERATION

USE WHEN VESSEL OR AIRCRAFT IS SIGHTED.

- (1) Extend hand grip and turn it over.
- (2) Roll up rubber cup and pull along the length to ignite.
- (3) Hold grip firmly and point downwind.

WARNING

Produces hot red flame
Hold upwards and overboard. Point downwind.
Do not use signal except in distress.
